DETAILED ACTION

Applicant's amendments and arguments filed on 15 June 2006 have been fully considered. Claims 1-13 are therefore allowed with the additional limitations included. Claim 14 has been previously allowed.

Examiner's Statement Of Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1-13 are allowed. The prior art fails to disclose or reasonably suggest an integrated polarization splitter with an active and passive portion including all of the claimed limitations but more specifically an active portion having at least one active device for individually modifying at least one of the first polarization component and second polarization component split by the arrayed waveguide grating. A close prior art of record is U.S. Patent 6,597,841 to Dingel et al, relied upon in the previous reject and now withdrawn. See Applicant's "Remarks" received 15 June 2006.

Claim 14 has been allowed for the reasons set forth in the previous Office action, mailed 16 March 2006, paper number 032006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
